### **DETAILED ACTION**

This is the first action relating to serial application number 10/620,696, filed 07-17-2003.

Claims 1-6 are currently pending.

#### ***Priority***

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

#### ***Drawings***

2. The examiner has accepted the drawing filed with this application.

#### ***Claim Objections***

3. Claims 2 and 6 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim.

Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claim 1, clearly recite that one of the sheaves is a fixed sheave and the other is a moveable sheave and it is not clear as to how claims 2 and 6 further limits independent claim 1.

#### ***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 2, 4 and 6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claims 2 and 6, the intended scope of the claims are unclear and confusing because it is not clear as to how many fix and movable

Art Unit: 3682

sheave are being claimed. In claim 4, the intended scope of the claim is unclear and confusing because it is not clear as to what "the other" and "the one" is referring to.

***Allowable Subject Matter***

6. Claims 1, 3, and 5 are allowed.

7. Claims 2, 4 and 6 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

***Conclusion***

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Whitecomb (2,187,188), Miner (2,905,005), Schnegg et al. (3,548,670), JP(63-53352), WO(89/07724), DE (3204059), IT (574631) and JP(59-0097354) disclose a CVT having a V-shaped groove such that the angles of the pulley contact surfaces varies.
